

WHOLE NO 481.

[illegible]

Some boys were out in the woods near Mill-cornelville, which is perhaps thirty miles out Concord, and observed what they termed a large red ball descending to the earth with a very tail to it, but were so frightened immediately to return home.—*Zanesville Courier.*

To-day at 10 o'clock being the time appointed for this ceremonial, the Mayor and members of the Council, attended by a considerable number of the citizens; appeared on the ground, and after a time spent in viewing the site, and the various aspects on all sides, the slight operation which is actual commencement of the undertaking took place. A space manufactured specially for the occasion by Messrs. Higgs & Co., was handed to his Worship the Mayor, who then with great rigor and effect trowed overboard half-a-dozen spades full of the soil and thus the initiation of the enterprise was thus consummated.

SCIENTIFIC CURIOSITY.—We have been presented with a beautiful diagram illustrating the eclipse of the sun, which will take place on the 13<sup>th</sup> of July next, visible in all parts of the United States and Canada. It is a scientific representation of the eclipse as it will appear to us, giving the position of the earth, moon and sun at the time; and also the moon's passage over the Sun. It shows the line of the *Unibra* or total darkness over the earth, commencing near the mouth of the Columbia River, in Oregon

Nubia, near the Red Sea, a little before reaching the eastern extremity of the Nile, and about 10 miles from its mouth at that place. It is handsomely colored, and would be interesting to all who have a taste for astronomical subjects. It is accompanied with explanations, and with the history of this eclipse from which we make the following extract:—"The first appearance of this eclipse since the creation of the world was in the year 958, D.C. 8th, O. S., when the moon's shadow just touched the earth at thiboden pole. It has appeared every nineteenth year until this eclipse, which is its twenty-first appearance. It will continue to appear every nineteenth year until the year 1674, which will be its last appearance until the year 1693, or the extinction of 39 (40) years."—

**EXCLUSION OF DAMP FROM BRICKWORK.**—The following method for obviating this evil has been described at the Royal Institute of Architects:—"Three quarters of a pound of mottled soap are to be dissolved in one gallon of boiling water, and the hot solution spread evenly with a flat brush over the outer surface of the brickwork, taking care that it does not lather; this is to be allowed to dry for twenty-four hours, when a solution formed of a quarter of a pound of gum dissolved in two gallons of water is to

ing of the surface of the timber over the coating of soap. The operation should be performed in dry, settled weather. The soap and alum naturally decompose each other and form an insoluble varnish, which the water is unable to penetrate; and the cause of dampness is thus said to be effectually removed. The other method consists of sulphurized oil as a varnish or paint, and is said to improve the color of brick or stone, and to preserve them. It is prepared by subjecting eight parts of linseed oil and one part of sulphur to a temperature of 218° F. in an iron vessel. It is said to keep off both air and moisture and prevent deposition of soot and dirt, when applied with a brush to the surface of a building of brick and stone or of a wooden building. The

**THE PRINCE OF WALES.**—The Command Council of New York have resolved, in accordance with a memorial numerously signed by leading citizens, to invite the Prince of Wales to that city on the occasion of his visit to Canada. Burke's Peerage describes the seven titles of the Prince of Wales as follows:—Albert Edward, the eldest son of Queen Victoria, was born November 9, 1841, and, consequently was eighteen years old last December. As a Prince of England, Scotland, Ireland, and Germany, his late Majesty's letters patent the following titles:—Prince of Wales by patent, 1841, Earl of Cornwall, by birth, Duke of Cornwall, by birth, Duke of

Great Steward of Scotland, by patent, do.  
Duke of Rothesay, by birth, Scotch.  
Baron of Carrick, by birth, do.  
Baron of Ross, by birth, do.  
Lord of the Isles, by birth, do.  
Earl of Dublin, by patent, 1849, Irish.  
Duke of Saxe-Coburg.  
Princess of Cobourg and Gotha. (German)

...calling to the business community, the  
 manager of the Montreal Telegraph Company  
 has again re-occupied an office in this place  
 (from the efforts which have been made to secure  
 the office here) will be duly appreciated by the  
 business community.  
 The meeting transmitted to any part of Cana-  
 da, and the principal cities of the neighboring re-  
 public, on the shortest notice.  
 O. FORD  
 Newmarket, Dec. 14, 1859.

**NELSON GORHAM,**  
Newmarket, 21st Decr. 1846.

**MOFFATT'S LIFE PILLS.**—The high and envied celebrity which this pre-eminent medicine has acquired for its invariable efficacy in all the diseases which it professes to cure, has rendered the usual practice of ostentatious puffing not only unnecessary but unworthy of them. They are known by their fruits; their good works testify for them; and they thrive but by the faith of the credulous. In all cases of colic, dyspepsia,

ious and liver affections, piles, rheumatism, fevers and agues, obstinate head-aches, and all general derangements of health, these Pills have invariably proved a certain and speedy remedy. A single trial will place the Life Pills beyond the reach of competition in the estimation of every patient.

Dr. Moffat's Phoenix Bitters will be found equally efficacious in all cases of nervous debility, dyspepsia, head-ache, the sickness incident to females in delicate health, and every kind of weakness of the digestive organs. For sale by Dr. W. B. Moffat

333 Broadway, and by Medicine Dealers and Drug-  
gists generally throughout the country.
